Is Child Cross, Feverish, Sick

Look, Mother! If tongue is coated, give "California Syrup of Figs". Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely. A child simply will not stop playing to empty the bowels, and the result is they become tightly clogged with waste, liver gets sluggish, stomach sours, then your little one becomes cross, half-sick, feverish, won't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is

coated, then give a teaspoonful of "California Syrup of Figs", and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well child again. Millions of mothers give this syrup because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels. Ask at the store for a 50-cent bottle of "California Syrup of Figs", which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Advertisement.

Obituary – Mrs. James Kendall 6 May 1915

Clara M. Kendall, only child of Mr. and Mrs. Edward Weston, was born in Jackson, Mich., July 6, 1876, and died in Ann Arbor, Mich., April 26, 1915, aged 38 years, 9 months and 20 days. She was reared and educated in Jackson, graduating from the High School in June 1893. Following her graduation, she taught for one year. On October 8, 1895, she was married to Mr. Edward Stewart, who was killed in an interurban accident July, 24, 1908. She was united in marriage to Mr. James Kendall of Grass Lake, June 26, 1912, since which time she has made her home in Grass Lake.

In early life, she united with the First Baptist church of Jackson and still held her membership there at the time of her death. Mrs. Kendall was one of those women whom to know her best was to love her most. Her interests were greatest toward those who were most in need and those whom she has assisted are many. Though her sun has gone down at midday yet her light will long shine upon the path of those who for a time were privileged to walk with her.

She leaves to mourn their loss, a bereaved husband, a father and a mother, many other relatives and a large circle of acquaintances. The funeral was held from the late residence on West Main street, conducted by Rev. H.R. Beatty and internment in Woodland Cemetery, Jackson.

Serious Runaway 6 May 1915

Mr. and Mrs. Carl Reynolds and baby were driving on Lake street Saturday afternoon when the horses became frightened and ran away. The baby who was sitting on a chair in front of its mother was thrown over the side of the wagon but for the quick wit of her mother would have been ground to death under the wheels. The baby escaped uninjured but in her effort to save the child Mrs. Reynolds was thrown from the wagon, and received injuries in her side and back. The sleeve of her coat was torn and arm badly bruised. The horses ran over a block before they were finally controlled.

Nation Is Getting Dry 6 May 1915

Only 15 per cent of the nation's territory is now wet. The whole United States is going dry! No doubt about it. All signs indicate that in 10 years more the United States will be a nation on the "water wagon". It may come sooner. Maybe five, three or even in two years. But another decade will see this country "dry."

* 4 states totally dry in 1907.

* 5 states totally dry in 1908.

* 9 states totally dry in 1909.

*10 states totally dry in 1914.

*18 states totally dry in 1915.

??? states totally dry in 1916.

Now there are 18 states which have enacted state-wide prohibition laws! (Prohibition? I thought this was going to be an article about "Global Warming" 100 years ago!) In other words, there have been nearly as many state-wide prohibition laws passed in the last six months as in all the time before. In 1906, Michigan was entirely wet (note: meaning you could drink alcohol). In 1907, Van Buren county went dry. Last election, out of 16 counties voting, 4 went dry, making the total number of dry counties in Michigan 44. Four dry counties refused in the election to return to the wet column.

It is not a question of prophecy or desire, it's simply signs of the times—and facts. Ten years more and the people of this country will have stopped consuming more than 2,000,000,000 gallons of alcoholic beverages yearly. The economical and efficiency demands of today—a world-wide demand—will have made Americans realize that they cannot afford to pay for or drink 139,496,331 gallons of distilled liquor, 56,424,184 gallons of fermented drinks yearly, as they did for instance, in 1912. And the war in Europe has had a lot to do with it! The industrial world is backing the “dry” movement. Safety first and efficiency demands have resulted in a fast moving sentiment that booze must go. Scientific and technical journals have taken up the campaign and are speaking with ever increasing force.

Blackest Spot on the Page of History 13 May 1915

The torpedo from the German submarine that sent the LUSITANIA to the bottom of the sea cost the lives of 115 American citizens. On board the great liner were 124 children in all including 40 babies in arms.

1,149	Total number of dead
115	Total American citizens dead
144	Number of bodies recovered
87	Number of bodies identified
65	Number of passengers' bodies identified
22	Number of crews' bodies identified
767	Total number of persons saved
465	Total number of passengers saved
302	Total number of crew saved

“Willful and wholesale murder”, was the verdict returned by the coroner’s jury against the German Kaiser, the German government, and the officers and crew of the submarine which sank the LUSITANIA. The Germans justify their course because of England’s blockade and attempt to starve them. Many who claim they know declare that the real conflict has just started and the new big German submarines are just beginning to be active and many more liners will be sunk. The Zeppelins also will become busy and there will be a raid on London with bombs. By May 18 not a ship will be going to or coming from England. President Wilson demands that unlawful acts of German submarines must cease.

*Flossie Haynes will resign her position at the P.O. this week and will begin work at the Woolworth store in Jackson Monday.

*Mrs. Ben McPherson left Monday for Rankin, Montana, where she and her husband expect to make their future home with her father, Daviel Swanton on his ranch.

*On average over twenty automobiles pass and repass on the highways through Grass Lake to one horse and buggy. And yet their numbers are on the continual increase.

*A little over four weeks more of school and then the summer vacation. Under the superintendency of Prof. Dorr, who has been ably assisted by a competent faculty, our schools this past year have been a pronounced success.

*Bruce Burtch has a hen which laid a freak egg this week. It was a fully developed and regular size egg within an egg. Another unusual large hen egg was the one found by J.W. Reynolds. It measured in circumference $6\frac{3}{4}$ and $7\frac{1}{2}$.

*About twenty girls attended the Rohrer Class meeting at the home of Fannie Mellencamp Friday evening. At the business meeting it was voted to furnish clothes for a girl at the St. Joseph home for children for a year. Ice cream and cake were served and a pleasant evening enjoyed.

*Mrs. Hattie Pelton Kerr, who lives in Washington, D.C., has just purchased a fine new home there in one of the best residence districts. Mrs. Kerr was born and raised in Grass Lake and later taught school here and will be remembered by many friends. Her husband has a government position at Washington.

*Mrs. E.L. Cooper invited her neighbors to her home Tuesday evening to enjoy with her the description of the San Diego and Panama Exposition and the western trip of Mr. and Mrs. M.L. Smith. Mrs. Smith read the same paper at the Reading Circle meeting Monday evening and it was very interesting and instructive.

*Miss Delia Hobart was the guest of honor at a six o'clock dinner and announcement party given by Miss Cleora Dwelle at their home Friday evening. The rooms were tastefully decorated and an abundance of apple blossoms, sweet peas and lilies of the valley helped to carry out the color scheme of pink and white. The table was especially attractive with pink heart shaped nut baskets, pink shaded candles and a large crystal basket filled with sweet peas and lilies of the valley made a dainty centerpiece. Each place was marked with a hand tinted card and beside them lay the announcements which read: Miss Delia Hobart—Mr. Edmund Robinson, May 19, 1915.

*The NEWS is in receipt of a post card with a little sack of salt attached from Mr. and Mrs. Walter Clark who mailed the same from Salt Lake City, Utah.

*Owners of huckleberry marshes in this section fear that the heavy frost last Sunday night greatly injured the huckleberry crop, if it did not destroy it altogether. Examination of the buds shows that they are turning black, which is proof that they are blighted. Strawberries also suffered materially as we learn and it is predicted that the yield of this delicious fruit will be limited. Newspapers spread over vines on such nights would save the fruit and more than pay for the trouble.

Decoration Day 20 May 1915

Dr. C.B. Wilcox has been invited to deliver the Decoration Day address in Grass Lake. The martial spirit which is abroad in the earth and the thousands of men lined up on the battle fields of Europe, arouses special interest in this Decoration Day. The men, both living and dead, who followed the red path of war to a fame that shall endure forever, are held in great honor by all of our people.

Following is the program which has been arranged by the G.A.R. (Grand Army of the Republic), which will be carried out on Monday, May 31: Dinner served at 11:30. Procession forms at 1:30 and proceeds to Maple Grove Cemetery where services consisting of a song by the school and ritual of the G.A.R. will be held at Comrade Mallon's grave. The procession will then return to the M.E. church where the following program will be carried out—Invocation, Rev. N.B. Wood; Song; Prayer, Rev. H.R. Beatty; Lincoln's Gettysburg Address; Recitation; Song; Address, Dr. Wilcox; Song—America; Benediction, Rev. W.A. Cutler.

The Joker Did Not Write These May 1915

Ordinarily, the clerks in the office of the recorder of vital statistics in Lansing have a rather dry time but occasionally a bit of mirth and nonsense creeps into the office on the report blanks of births and deaths. Here are samples of some of the mirth provoking inscriptions recently found on death certificates under the heading, CAUSE OF DEATH:

- Went to bed feeling well but woke up dead.
- Died suddenly at age of 103. To this time he bid fair to reach a ripe old age.
- Do not know cause of death but patient fully recovered from last illness.
- Deceased had never been fatally sick.
- A mother, died in infancy.
- Died suddenly. Nothing serious.
- Pulmonary hemorrhage—sudden death. Duration, 4 years.
- Kicked by a horse shod on left kidney.
- Don't know. Died without aid of physician.
- Blow on head with ax. Contributory cause—another man's wife.
- Deceased died from blood poison, caused by a broken ankle, which is remarkable as his automobile struck him between the lamp and radiator.

Obituary—Mrs. Henry Ahling 20 May 1915

Margaret Catherine Pahlman was born in Langen, Germany, Sept. 19, 1847. She came to this country in the fall of 1861 and was married to Henry Ahling at Waterloo, Mich., April 30, 1863. To this union eleven children were born, eight having passed into the great beyond. The husband and three children, Mrs. T.J. Denley of Jackson, Mrs. Byron Williams and Mrs. W.A. Taylor of Grass Lake are left to mourn their mother. The most of her life was spent on their farm north of Grass Lake. In 1911, the family moved into the village where she resided until the time of her death on May 11, 1915.

“The angels have made us a visit
Removed from our home a dear face,
A dear one to us known as mother,
Which on earth there can be none to take her place.
For years she has patiently suffered,
And prayed her dear Saviour to take
Her away from her cares and her burdens,
To sleep with her loved ones in heaven and
there in his splendor awake.

We'll miss your kind face and your footstep,
That always was here in our home,
The days will pass slowly without you,
When we are left sad and alone.

We will miss you, greatly miss you,
But our loss will be your gain,
As we know you have gone to heaven,
We could not ask you to remain.

There to be and to dwell with your loved ones,
Where, in spirit, they never die,
We will leave you to his tender mercy,
And all utter gently “good bye”.

Local and Personal Items May 1915

- *Mrs. Fred Wolpert was taken to the hospital in Ann Arbor for treatment Saturday.
- *Miss Hilda Goodband and Clare Shaler were married Saturday at the home of the bride's parents.
- *The Town baseball team was defeated by the High School nine Saturday, 25 to 10.
- *The boys in Mrs. Geo. Watkins' class of the M.E. church will be entertained Friday evening by Marion Sanford.

*W.K. Crafts attended the meeting of the Grand Chapter of the Royal Arch Masons at Kalamazoo.

*Mr. and Mrs. George Weinhold left last Wednesday for Indiana to visit relatives.

*Many people seem to forget that there is a five dollar fine for posting bills on telegraph or telephone poles within the corporate limits of this village.

*Anson Patchin has been appointed sexton of the east cemetery for another year, and the neat and tidy appearance of that beautiful home of the dead attests the care he bestows on the grounds. An addition is to be made to the premises on the northeast if the needed realty can be had at a reasonable price.

*Scorching through our town by motor cycles and automobiles ought to be stopped. Drivers of these machines, fired up with Chelsea beer, shoot along our street at the rate of forty miles an hour and somebody, sooner or later, is liable to get hurt. Examples should be made of some of these reckless chauffeurs.

*The recent rains were widely spread and most timely. As the ground was thoroughly soaked to a depth of several inches all classes of vegetation felt the impulse of the humidity. Fields and gardens were benefited, streams received an increased flow, cisterns were refilled and the tillable earth so softened that corn and potato ground will be planted under the most favorable conditions.

*Before the Michigan Central railroad was built, live stock was driven from the interior of the state to Detroit along the public roads. From Grass Lake about four days were consumed in getting a drove through as only about fifteen miles a day were made while en route. At Detroit the animals were placed on board transports or barges and towed to Buffalo. Cattle from as far west as Kalamazoo county often passed through Grass Lake to the place of shipment. In those days a good fat steer could be bought for from twenty to twenty-five dollars.

*Notwithstanding the best law protection possible, there are but few flocks of quail, as we have left in this part of the state compared with the old-time years. Is the multiplication of this fine game bird kept down by the sly use of guns or traps, or is its scarcity attributal to the destruction of its eggs by weasels, skunks and other animals that range the woods and marshes?

*Saturday afternoon, the boys of the 5th and 6th grades who call themselves the G.L. Sluggers, played the Leoni Stars on the Chappell field and defeated them to the tune of 12 to 9.

*While taking the shells from a 22-calibre gun Saturday, Lyle Rohrer accidentally shot through his foot. He is getting along nicely under the care of Dr. Lake.
